About US :

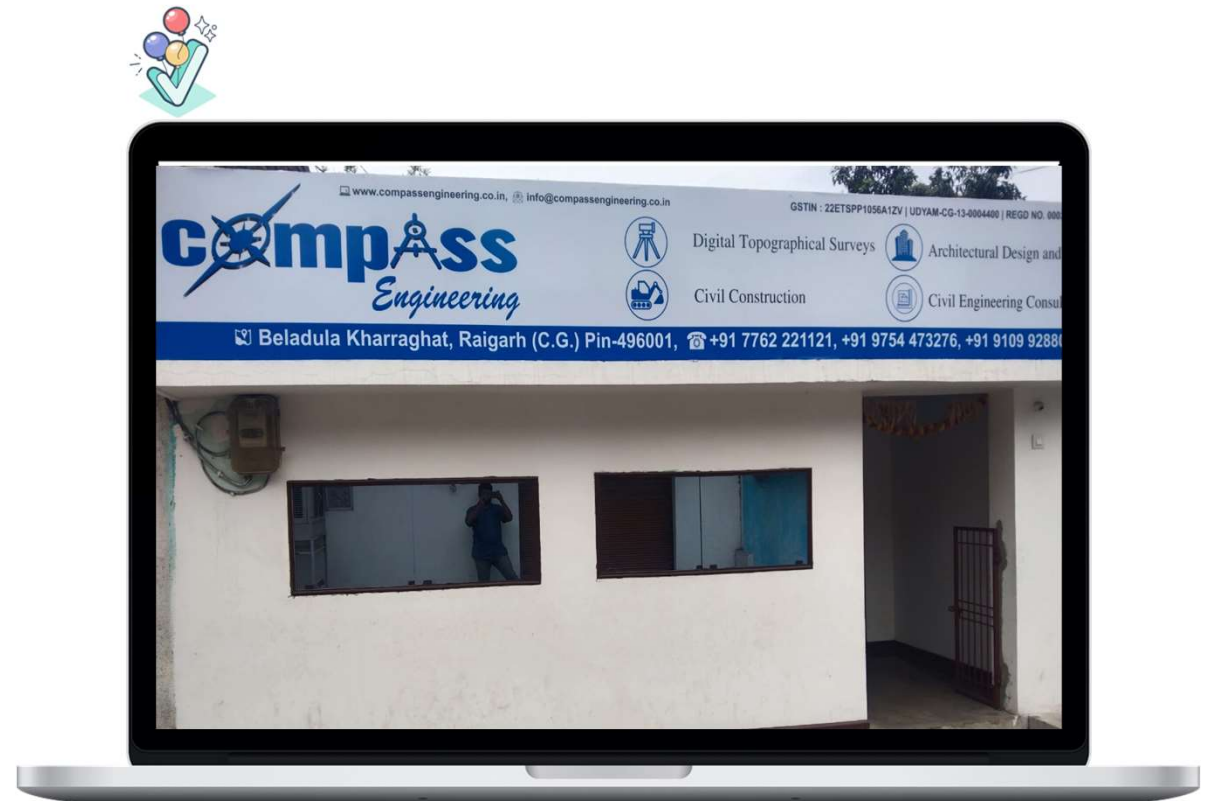

Compass Engineering is a Survey Agency and Civil Construction firm, established in 2018 by experts with years of experience in civil engineering and Topographic surveying, Mining Survey, Detail surveying, quantity surveying Transmission Line Survey and surveying in civil construction. **We Have Certified DRONE by DGCA** When the company was established, there were only 5 machines to do the work. Due to the rapid penetration of the market, which was the result of the application of good engineering practices, the company has been gradually growing and today it has expanded its scope of work and has demonstrated its utmost excellence completing the work.

DGCA CERTIFIED DRONE

At present, the company has a variety of machines, Drones, GPR, Bathymetric Boat and highly qualified staff employed with applications such as: topographical survey, Mining Survey contour survey layout survey, Transmission Line Survey and quantity measurement. The company's approach is a reflection not only of high quality and professionalism, but also of market expansion. Constantly striving to adopt new business developments and examine our research data and maintain healthy and proper relations with already established and regular customers.
